The explosive connection at CrossCurrents Café in Bolton

By Steve Slutsky Lead Volunteer

Inside each musician there are powerful emotions, intuitions and perceptions that cannot be expressed in words alone.

Each longs to make connection with a listening audience, tuned to the same resented in our café. This diverse crowd wavelengths and able to resonate with responds not only to their own cultural the musician's inner energy as it flashes traditions, but those of the other nations

This is what we mean by a "listening audience." Our musicians all know the phrase. They have all experienced the non-listening audience in noisy bars, wedding receptions and other events where they feel like part of the wallpaper.

When one of our CrossCurrents performers breaks for a good, improvised solo, our listening audience provides the soft little applause, the one that acknowledges the solo without interfering. clubs during the '60s and am so pleased to like Toronto or Montreal. hear it happen here in Bolton.

This kind of attuned response makes Bolton isn't so sleepy after all! musicians want to perform for CrossCurrents Café.

There is a moment where the performers' energy raises the energy of the audience. And the audience feeds it back, in a loop, to the performers. At CrossCurrents, this has happened time and again. I call it "magic," for lack of a better word.

I am always amazed by it. And thankful.

Who is the audience?

Sometimes our life circumstances change. Due to family, health, financial and other personal reasons an owner may no longer be able to care for a pet. Surrendering a pet is a heartbreaking decision, and one that is not taken lightly. Our caring animal services staff will support you and your pet throughout this process.

How do I find a new home for my pet?

The professional and caring staff will guide you through the process and collect vital information as part of the initial *assessment of your pet. Your personal information is always kept confidential. All pets have to pass a behavioural and healthy assessment before they are surrendered.

What happens when I surrender my pet?

If your pet passes the assessment process our dedicated and compassionate staff will provide a high standard of care until it is placed in a new home. When your pet is ready for adoption, we will

do our utmost to ensure that it finds a welcoming and appropriate home. Potential adoptees are carefully screened to ensure the best possible match is achieved.

How much does it cost?

To help offset the cost of care for your pet, there is a fee that ranges between \$61.00 to \$130.00 (depending on whether your pet is spayed, neutered and/or vaccinated).

Where can I get more information?

Please contact Animal Services at 905.857.5208, animal.services@caledon.ca or visit caledon.ca/animalservices.

*Please note, due to limited space at the Caledon Animal Shelter, there may be times when we have to turn away pets for surrender.

An opportunity to serve

The Town of Caledon is seeking one community-minded resident to serve on the Committee of Adjustment, a quasi-judicial body that meets monthly to consider applications for minor variances and severances. Members receive a per diem of \$130.00 for each meeting attended. Apply by Friday, August 18, 2017, at 4:30 p.m. at www.caledon.ca/committees.

Streetlight Decoration

EXPRESSION OF INTEREST

Do you belong to a recognized community group? Would you be interested in displaying decorations or banners on town streetlights?

The Town is conducting an 'Expression of Interest' for recognized community groups. The information collected will help assess the feasibility of a pilot program that provides financial assistance to community groups interested in installing streetlight decorations.

Government's approach to closing tax loopholes raises concerns

Everyone can agree that we should all pay our fair share of taxes.

We can also agree that tax loopholes which allow some business owners to unfairly take advantage of the tax system should be closed. Finance Minister Bill Morneau recently announced that he intends to close some loopholes that allow wealthy Canadians to avoid higher tax rates. While the Minister's aim may, in fact, be well-intended, his proposed measures raise legitimate conthe rules.

NEW Hearing Aid Technology

Finally a hearing aid that allows you to hear in all directions!

This latest digital technology solves the biggest challenge for hearing aid wearers - hearing well in noisy environments.

Traditional hearing aids only allow the wearer to hear in one direction, which can make it difficult to hear in a public setting like a restaurant. Now with this new breakthrough technology, the wearer can enjoy a dynamic soundscape and differentiate between speech and noise.

Nobody will notice it because of its minute size, fitting snugly and comfortably just behind the ear. Everything works automatically, so you can get back to enjoying your relationships, rather than thinking about your hearing.

IN MEMORIAM

In Loving Memory of a dear husband, father, and grandfather!

Dennis Edward Moore

> who passed away **August 9th, 2016.**

Time in a Bottle Jim Croce

If I could save time in a bottle The first thing that I'd like to do Is to save every day 'Til eternity passes away *Just to spend them with you*

If I could make days last forever If words could make wishes come true I'd save every day like a treasure and then, Again, I would spend them with you

But there never seems to be enough time To do the things you want to do Once you find them

I've looked around enough to know That you're the one I want to go Through time with

If I had a box just for wishes And dreams that had never come true The box would be empty Except for the memory Of how they were answered by you

But there never seems to be enough time To do the things you want to do Once you find them I've looked around enough to know That you're the one I want to go

Through time with
