

Hoy was ?demeaning and sarcastic?

Everyone is entitled to their own opinion including Claire Hoy in his July 31 column ?Predictable report shrugged off.?

Going well beyond his own biases, which were fully on display, his comments were demeaning and sarcastic. I know that if I found myself having to be judged by ?Saint McLachlin? (Hoy's words) or ?King Harper? (my words) I'd opt for the Supreme Court Chief Justice every time.

From now on, I think I'll just shrug off Hoy's pearls of wisdom and turn to the next page.
