

Reader enjoyed columns

OUR READERS WRITE

I just wanted to send you a quick note to comment on how refreshing I found the articles on page A11, May 30, 2019.

I enjoyed reading "Connecting seniors to people, programs and possibilities" by Mayor Allan Thompson. I am a senior in Caledon and I very much appreciated the recognition.

I particularly enjoyed reading "Hoping for a better future" by Laura Campbell. I connected to her submission so very much. It was well written, easy to read and so hopeful!

Both pieces were very positive.

I have grown weary of some of the recent articles where I feel the publication is often used to campaign and sell political party agendas.

I hope we will see more like this from Laura Campbell and Mayor Thompson.

Thank you,

Julie Pomeroy
