

What is a Denturist?

This is a question I often get asked by my patients when they first come into my office. As a Denturist I am a denture specialist, not a Dentist. As a licensed Denturist I am responsible for the recognition of dental deficiencies and oral complications. I do not do fillings, nor do I pull teeth ? I co-ordinate this with your Dentist to provide the best treatment options for you. We sit down together and discuss what your expectations are from your new teeth and what we can provide in terms of appearance, fit and function.

Having a new set of dentures fabricated can often be a stressful and fearful experience. Here at The Kostynnyk Denture Centre I take strain out of the process. With 30 years' experience and the utilization of new techniques and materials I can eliminate many of the unpleasant procedures associated with denture creation. Creation, it truly is! Each step of the process will be clearly outlined to you as we proceed towards your new smile and, we will not complete the new denture until you are happy with the appearance, and I am happy with the function. Having an on-site laboratory allows me to make special accommodations you may require for your new smile.

A proper fitting denture provides not only a sense of confidence when out in public but allows you to eat a proper and balanced diet. The ability to properly chew food takes the strain off the digestive system and often reduces stomach problems. Don't be afraid to order your favorite foods when out because you are worried about your dentures.

To book your Free Consultation please give me a call at (905) 857-4464 and, let's get you smiling again.

Yours In Good Health,

David Kostynnyk DD, BSc.
